PROFILE

I am a passionate Junior Software Developer currently pursuing a Bachelor of Information Technology at the University of Colombo School of Computing (UCSC). I specialize in full-stack development using Spring Boot, Laravel, Angular, and MySQL to build scalable and efficient web applications. During my internship as a Laravel Developer, I contributed to ERP, POS, and real-time systems by implementing new features and optimizing performance. I am a strong problem solver with solid OOP knowledge, continuously improving my skills in modern software development.
